

Coated Aluminium for Pharma capsules

Italcoat supplies **coated aluminium** to manufacturers of **pharmaceutical capsules**.

We care about **sustainability**

We continuously improve the **resource optimization** to increase production efficiency. We work hard to **reduce consumption** of water, energy and paper; to **control and limit emissions**; to **effectively manage harmful substances and waste**.

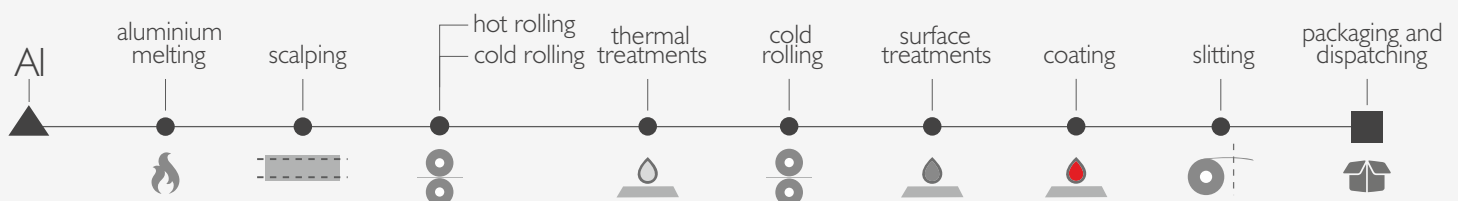

TECHNICAL SPECIFICATIONS

Typical Alloy: 3xxx - 5xxx - 8xxx

Thickness: 0,18mm up to 0,30mm

Width: >25mm

How we manufacture **coated aluminium coils** for pharmaceutical capsules

MAIN APPLICATIONS

INJECTABLES

VIAL CAPS

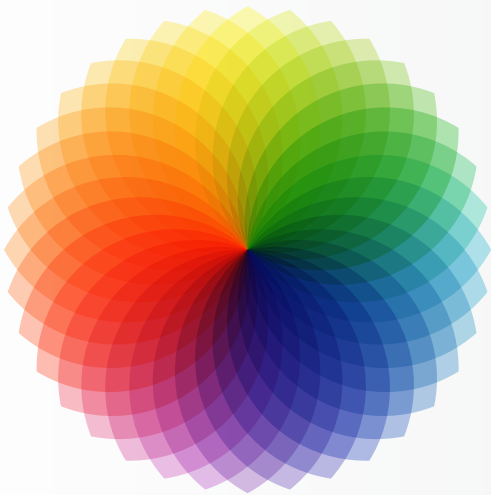

PUSH-OFF CAPS

PILFER-PROOF

ADVANTAGES OF COATED ALUMINIUM

- Sterilization resistance
- Perfect printability
- Protection against corrosion
- Ideal mechanical properties for deep drawing process
- Excellent isotropy

All colours are available, upon request.

All lacquers can be provided in the **opaque**, **semi-opaque**, **bright**, **semi-transparent** and **transparent** version.
